I am looking for opportunities to develop new skills while strengthening those I already possess. My diploma in Information Technology has enabled me to develop good computer skills, an analytical/logical approach to tasks and problem solving. Through my education, I developed the ability to work under pressure. My main strengths are adaptability, self-learning, dependability, and the determination to get a job done. I get on well with people at all levels, easily making good working relationships. I have a genuine interest in Technology. I try to learn something new from every experience because I believe there is always room for self-improvement both personally and professionally.

Skills

Languages: JavaScript, Java, Python & C++

Frameworks: React. Also FAMILIAR with Angular.

Other: HTML 5 & CSS3

Work History

2022-08 - Current

Full-Stack Developer (Freelancing)

Independent Studios, Johannesburg

I am currently building a website for the brand, which is something they'll be able to utilize to sell their music, merchandise and also provide music streaming services.

Roles and Responsibilities:

- Design the user-interface using HTML 5, CSS3.
- Utilizing Cloud Services; Microsoft Azure
- Add new features to the website using JavaScript and React.
- Troubleshoot problems and identify areas for improvement.
- Maintaining, Testing and Debugging.

2019-12 - 2023-03

Retail Sales Associate

TFG, Johannesburg

Roles and Responsibilities:

- Balanced and organized cash register by handling cash, counting change, and storing coupons.
- Answered questions about store policies and addressed customer concerns.
- Used POS system to process sales, returns, online orders, and gift card activations.
- Organized store merchandise racks and displays to promote and maintain visually appealing environments.

2018-12 - 2019-03

I.T Work Integrated Learning

AAA School of Advertising, Johannesburg

At AAA School of Advertising, I did field work for the first time to gain work environment experience.

Roles and Responsibilities:

- Data capturing and updating of enquiry database using CRM system.
- Network System maintenance.
- Developed strong communication and organizational skills through working on group projects.
- Proven ability to develop and implement creative solutions to complex problems.
